

Drinking Gasoline

The Baboons

Well I'm driving down the road in my Cadillac
Travelling lies me by a road turning black
Drinking gasoline is a whole lotta do
Drinking gasoline to get over you
We were doing swell with a short way to hell on the hill

Well I met you in the desert at Sabriskey point
Out of gasoline; ran out of oil
Really fill my tank, you're quite Tomar
Drinking gasoline out of your silver cup
We were doing swell with a short way from hell on the hill

Well I drove ten thousand miles away from home
See no trap in jail, but ain't no desert spawn
Drinking silver cup is a whole lotta do
Drinking silver cup baby me and you
We were doing swell with a short way from hell on the hill

Lead Break

Engine started smoking and wings on fire
Big wheels started shaking and I lost a tyre
My baby she exploded drinking gasoline
That doggone that doggone that mean machine
We were doing swell with a short way from hell on the hill

First verse again.
