

# Call It What You Want

## Tesla

I'm in love with a lady and I know  
The lady's in love with me  
And she knows that I'll always be there  
That's why she's willin' and ready  
But now and then, every once in a while  
Something inside of me, maybe inside of her  
Have you ever had one of those days  
When it all is goin' wrong?  
And it just can't seem to get along  
But through it all you know you're gonna make it  
Call it true love, call it not meant to be  
You can call it anything at all, you see  
Call it what you want  
It's all the same to me  
Music means a lot to me  
Like love, I make it when I can  
All I am is all I'll ever be  
And that's just a boy from Texarkana  
But now and then, oh, but once in a while  
They start treatin' me like some kind of superstar  
Need I mention at the end of the day  
What matters most of all  
It's not where you're at or where you're comin' from  
When all is said and done, you can call it  
Heavy metal, hard-core, punk, pop or thrash  
You can call it anything, it don't matter to me  
Call it what you want  
It's all music to me  
Call it communism, call it free  
Some call the ocean, what some call the sea  
Call it what you want  
It doesn't change a thing for me, not a thing  
Baby's lyin' in a cradle  
Universe is all within its reach  
Wearin' rags or mink and sable  
Needs a guidin' hand or it's out on the street  
Now, momma's out, she's never at home  
Daddy's takin' care of business, he's out on the road  
It's rainin' cats and dogs

But the child within us all must face the storm  
Call it individuality  
Some call it fate, others reality  
Call it what you want  
It doesn't matter to me  
Call it communism, call it free  
Some call the ocean, what some call the sea  
Call it what you want  
It doesn't change a thing for me, not a thing
