

Black Diamond

AYER

Cosmic spaces, no tight places
in the field of light we normalize Dancing slowly, soft like a
quiet storm in a sea of night
with stars for eyes I know we're gonna shine
when I hold you tonight Black Diamond
Black Diamond
Black Diamond
I will hold on to you Black Diamond
Black Diamond
Black Diamond
I will hold on to you I, I'll hold on
I, I'll hold on,
I, I'll hold on, I'll hold on, I'll hold on Floating freely, no gravity
to hold us tight
Like a satellite, we roam the night Meteors explode through the
atmosphere then we ignite
and light the sky I know we're gonna shine
when I hold you tonight Black Diamond
Black Diamond
Black Diamond
I will hold on to you Black Diamond
Black Diamond
Black Diamond
I will hold on to you I, I'll hold on
I, I'll hold on,
I, I'll hold on, I'll hold on, I'll hold on I, I'll hold on
I, I'll hold on,
I, I'll hold on, I'll hold on, I'll hold on Black Diamond
Black Diamond
Black Diamond
I will hold on to you Black Diamond
Black Diamond
Black Diamond
I will hold on to you I, I'll hold on
I, I'll hold on,
I, I'll hold on, I'll hold on, I'll hold on I, I'll hold on
I, I'll hold on,
I, I'll hold on, I'll hold on, I'll hold on
