The City

Madeon

There is a place in the distance
A place that I've been dreaming of,no no time in space don't exist there
We can dance like there's no tomorrow
There is a place, no time in spaceI got tomorrow to
I got to all the way
I got tomorrow to
I got to all the way
I got tomorrow to
I got to all the wayI can feel the city crumbling around me
Can't seem to find my way
But I can see a bright light calling through the dark night
Hoping to find my way
Yeah I had what I wanted
It went away so fast, fast
Yeah I got to let go
We can dance like there's no tomorrowI got tomorrow to
I got to all the way
I got tomorrow to
I got to all the way
I got tomorrow to
I got to all the wayI can feel the heartbeat underneath the concrete
Just like a kick drum plays
Running in a straight line guided by the street lights
Pushing the dark away
Yeah I had what I wanted
It went away so fast, fast
Yeah I got to let go
We can dance like there's no tomorrowThere is a place in the distance
A place that I've been dreaming of, no
No, time and space don't exist there
We can dance like there's no tomorrowThere is a place in the distance
A place that I've been dreaming of no oh time
And space...
We can dance like there's no tomorrowI got tomorrow to
I got to all the way
I got tomorrow to
I got to all the way
I got tomorrow to
I got to all the wayTomorrow

Tomorrow
We can dance
