

# Resolve

## Greenwheel

Can you feel the tension?  
Have you heard the voices of the lost?  
Churning up the fire  
To reach the dark side of you  
When the walls decide to close in  
And the floor disappears beneath you  
Just hang on to our last words and  
Resolve, resolve  
Touch your hands to water  
Place them on the fire  
Have faith, the flame will lose it's strength  
Just touch your hands to water  
Hold your breath for one more second  
Soak the torch in kerosene  
And light the match and  
Watch as it all closes in  
Can you feel the tension  
Can you hear the voices of the lost?  
Just hang out to our last words and  
Resolve, resolve  
Our lives will hang on the words you have spoken  
And we will wait for our God to return  
Lift your hands to the heaven  
Let your hard heart be encased in flames  
Touch your hands to water  
Place them on the fire  
Have faith, the flame will lose it's strength  
Just touch your hands to water  
Our lives will hang on the words you have spoken  
And we will wait for our God to return  
Lift your hands to the heaven  
Let your hard heart be encased
