[Translation]

The talks we had as we looked at each other

The stories that only we knew

I guess I can't erase them,

I can't throw them away,

I can't forget them

I look around these streets for the first time in a while

Whenever I pass this street, the good memories

They keep floating up in my head so I stop my footsteps

After a long time, I am here right now

Because I long for that time,

Though I tried to live without knowing,

I keep thinking about it

That's how I am, it keeps coming into my eyes

The times we spent together, the memories -

they fall like stars

How about you?

The people look only happy

It seems like I'm the only one left in loneliness

I try to pretend that I'm not

but I keep thinking of you

After a long time, I am here right now

Because I long for that time,

Though I tried to live without knowing,

I keep thinking about it

That's how I am, it keeps coming into my eyes

The times we spent together, the memories -

they fall like stars

Tears fall

If I wait here,

will I be able to see you?

Then will I be able to tell you

how I feel right now?

Because I miss you, because I am missing you

That's how I am, I only know you

Living without you makes me filled

with regret about everything

Because you're not here,

because there are so many empty things

Again today, I long for that spot and

my footsteps won't move and I call out to you
