

# Shell Beach

## Geographer

Down, down the road  
Straight to the bottom of the ocean floor  
We pack up every house  
Took every family... we were getting out  
And the waves, they are so strong  
They move your perfect body and the perfect song  
Oh tonight, the world is ours  
Cause we don't need to want to know who we are

I am alive, but I am so cold  
And if I stay here much longer I will stay for good  
But for now, I feel so free  
I'm feeling almost like it was all meant to be
