Shut Your Eyes

Shout Out Louds

Say yes, don't say no
'Cause I'm ready now and I want to go
What if I cry cry cry wolf
So I die die die alone
I wanna know, please say it isn't soIt's now and we're too late
There's no time for a debate
But if you swear you'll never leave
Then I promise I'll be the one
Who stays there all alongSo shut shut shut your eyes
It sounds so good right now
And he gave us a big surpriseStay close, don't get up
You're starting now so please stay off
What if I shout shout shout my name
You'll always remember my name
I want to know, please say it is soSo shut shut shut your eyes
It sounds so good right now
And he gave us a big surpriseSo shut shut shut your eyes
It sounds so good right now
And he gave us a big surprise
