The Camel City

Codeseven

Get out of this bed each day
I hear things I never thought I'd
hear myself say,like "this sure feels
nice,I wish it would stay"
yeah right
I'm in here fallin' around
I won't see your face lay you down
cause when I'm fully aroused
I won't see your face layin'down
if I could turn it around
I want to see your face land down
I wish I could turn it around
I want to see your face landing down
and if you hold on
and I'm still there
cause I'll get so cold and its so long
for me
and if you hold
and I'm still there
I just wanna turn it around
I just wanna turn it around
all around
