

Get Real

Pro-Pain

Need on my left, greed on my tight
Secrets are kept plain as black and white
And its a killing machine
The best that there's ever been
Now feed, and give the nose a line
It ain't easy. Hard Defined
1986, L.A.'s Compton cocaine central
Crackhead politics...I feel
the international cause
it was plain and simply self inflicting
genocidal wounds that never heal... So get real
United we stand, divided we'll fall
You've poisoned our sons
and drowned us in alcohol
Now Im gonna get you back
Prepare for a brutal attack
I swear I'm gonna take a chance
set up shop, take a stance
Into the pressure zone
Gotta crack the pipeline into Texas
and make sure another state won't deal
We'll seize the last of it
then we'll crush the system as we know it
breaking through all governmental seal...To get real
