

Lovin' a Man

Sparkle

See there ain't nothing better than
When you got someone that wants to hold you real tight
(That's tight)
Ain't that right girls?
(That's right) And there ain't nothing better than
When you got someone who knows how to treat you right
(Damn right)
I know what I'm talking about
(Damn right) He keeps me thinking and dreaming and singing all day
Waiting for him just to call me and say
How much he loves me
That's what he does, you see When you're lovin' a man
(When you're lovin' a man)
Don't you let nothing come in between what you got
That's right, my lady sing that's right
(That's right, that's right) When you're lovin' a man
(When you're lovin' a man)
You do anything that you can do to keep it tight
(Keep it tight)
That's tight, that's right
(Girls, you know what I'm talking about) See when he gets home from work
I got bath water ready to wash his body down
(That's right)
Even wash his feet real good
(That's right) And then we make love, I just can't help myself
I just lose control
(Good love)
That's what he gives to me
(Good lovin') That's why I cook and I clean and I take care of him
'Cause he loves me, I'll do it again and again
Because that's my man and I'll do whatever I can See, when you're lovin' a man
(When you're lovin' a man)
Don't you let nothing come in between what you got
Don't let nothing and nobody come between you
(That's right, that's right) When you're lovin' a man
(When you're lovin' a man)
You do anything that you can do to keep it tight
(You do anything you gotta do)
That's right, that's right

But listen here See ladies, I'm not waiting to exhale
No, no, I'm breathing now
See, when you got a good man
And I did say a good man, that's right You will stand by him
Support that man the best you can
Even through those rough, rough times
Y'all know it's hard out here
But make sure you're doing what you can See, when you're lovin' a man
(When you're lovin' a man)
Don't you let nothing come in between what you've got
(Don't let nobody come between you and your man)
That's right, that's right When you're lovin' a man
(When you're lovin' a man)
You do anything that you can do to keep it tight
(You do anything, anything, girls you know what I'm talking about)
That's right, that's right When you're lovin' a man
(Don't be running with the Jones's)
Don't you let nothing come between what you've got
(Worry about your house and your home)
That's right, that's right
(You understand me, that's right) When you're lovin' a man
(When you're lovin' a man)
You do anything that you can do to keep it tight
That's right
