

Howlin' at the Moon

Robben Ford

Got an early warning
I got ragged news
Shes made for one time
Shes got muddy shoes
I took the crap out right
But it entered too soon
And I feel less hungary
Now shes howlin at the moon
Conflict of interest
Someone cried
Played out machine
Feels so empty inside
She raised the stakes
Then she left the room
The track wouldn't make us
Out there howlin at the moon
Howlin for a cup cake ha (backing singers)
Howlin for the memories memories do your good time
Howlin for the memories, for he's a poorly manEarly warning
I got ragged news
She's made for one time
She's got muddy shoes
I took the grap out right
But it entered too soon
Yeh I feel less hungary left here howlin at the moonHowlin at the moon
