

# River Flows In You

## Jasper Forks

If you have the time to share the road with me  
If you can imagin we could both be free,  
What I long to do is give my heart to you  
So that you can always hold it close to youHolding you, holding you  
It's in you,  
The river flows in you  
Slowly now, slowly now  
It's in you,  
The river flows in youIf you have the time to share the road with me  
If you can imagin we could both be free,  
Holding you, holding you  
It's in you,  
The river flows in you  
Slowly now, slowly now  
It's in you the river flows in youIf you have the time to share the road with me  
If you can imagin we could both be free,  
What I long to do is give my heart to you  
So that you can always hold it close to you
