

# The Universal

## Blur

This is the next century  
Were the universal spree  
You can find it anywhere  
Yes, the future's been sold Every night we're gone  
We sing karaoke songs  
How we like to sing along  
'Though the words are wrong It really really really could happen  
Yes it really really really could happen  
When the days they seem to fall through you  
Well just let them go No one here is alone  
Satellite's in every home  
Yes the universal's here  
Here for everyone Every paper that you read  
Says tomorrow's your lucky day  
Well here's your lucky day It really really really could happen  
Yes it really really really could happen  
When the days they seem to fall through you  
Well just let them go Well it really really really could happen  
Yes it really really really could happen  
When the days they seem to fall through you  
Well just let them go Just let them go  
Just let them go
