

You in Your Were

Kevin Drew

There's a leader who leads through and got a ways
He might hold you, and baby, win a race
And all the leaders who fall with a broken man
They could call you up, baby, with a plan It's the way that you were
You in your were I've believing before I return to this
I can feel like always what I missed
And the leader who cracks down a broken prince
You can feel it, and baby, what you learned It's the way that you were
You in your were I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could When I'm seeing all that I'm living through
It's like, always there, baby what you do
And I can see the words in the lights, I could
You should breathe now, and then baby, what you do It's the way that you were
You in your were I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could
I never got it, but you rem'ber all that you could
