

# Get Ready

## Anti-Nowhere League

Shoot it all out across the nation  
We don't need your fuckin' education  
We're sick and tired of your vile population  
Your mother don't like your chronic generation...

Get ready for the beat tonight  
Get ready with the dynamite  
Get ready for the infestation, population boom,  
Get ready for the beast tonight  
Get ready for the fight tonight  
..Get ready for the holocaust and kiss your arse goodbye  
..Bang bang you're dead

You're looking out for a lot of penetration  
But all you get is fucking aggrovation  
Banging out kids ain't no occupation  
Your mother don't like mass sterilisation!

Get ready for the beat tonight  
Get ready with the dynamite  
Get ready for the infestation, population boom,  
Get ready for the beast tonight  
Get ready for the fight tonight  
..Get ready for the holocaust and kiss your arse goodbye  
..Bang bang you're dead

You're too young for civilisation  
You're only good for masturbation  
You don't need a poxy vaccination  
Your mother don't like this fornication.

Get ready for the beat tonight  
Get ready with the dynamite  
Get ready for the infestation, population boom,  
Get ready for the beast tonight  
Get ready for the fight tonight  
..Get ready for the holocaust and kiss your arse goodbye  
..Bang bang you're dead

Get ready for the beat tonight  
Get ready with the dynamite  
Get ready for the infestation, population boom,  
Get ready for the beast tonight  
Get ready for the fight tonight  
..Get ready for the holocaust and kiss your arse goodbye

..Bang bang you're dead  
..Get ready with a priest tonight  
And kiss your arse goodbye...
