Song for You

Speedstar

If I was there to walk you home
to your house up to your room
tired legs and alcohol stay a while stood in your door
cause I don't wanna wake up sad
I don't wanna wake up sad
I don't wanna wake up sad
wanna wake up with you

coolest looking cigarette in your mouth touching your lips moments that were cut too short could have been more than its turned out so far

If I was there to walk you home to your house and up to your room tired legs and alcohol stay a while stood in your door

cause I don't wanna wake up sad
I don't wanna wake up sad
I don't wanna wake up sad
wanna wake up with you
