

Memories of You

[Avi Buffalo](#)

Memories of you,
They only come to me
When I'm with you
One moment I come to,
The rest I spend in dream
It's all the same,
Bitch I'm on fire
You got mad now, I'm desire
I'm a cheese ball on fire
Tell the morning dew Memories of you,
They only know what's safe
For the dews
And Saturday sure sucked
The life right out of me
Hello sweet peace
My boner press, up to your chest
I let go, and then
The morning of my grandpa I never met
The corner stage, na na na na
One shot of truth, the open corner stand
My breath away, I should have
F*ck I'm supposed to do,
If these memories won't hurt me
They'll hurt you
For the moments wasting now
The contacts stove the light
My cherry pie, please take my load
Just got one holy one
And springs at the sauce,
I couldn't stop
