

By Your Side

Medina

You are like a barely meadow

Like a rare star up in the sky

You can rule the world

'Cause you're a "go-getter"

Like a beautiful pearl

You don't need me by your side And I look at you and see the light

Did you know when I think of you didn't know that you'd be fine without me? I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by your side I'm by by by by your side

I'm by by by your side, by your side

I'm by by by by your side

I'm by

You, you never seem to get it

How you make me feel so peaceful in my mind

You fulfill my world and nothing else measures

With you in my heart I'm stronger by your side And I look at you and see the light

Did you know when I think of you didn't know that you'd be fine without me? I'm by by by by your side

I'm by by by your side

I'm by by by by your side

I'm by by by your side I'm by by by by your side

I'm by by by your side, by your side

I'm by by by by your side

I'm by I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by by your side I'm by by by by your side

I'm by by by by your side

I'm by by by by your side

I'm by by by by your side
