

Will I Ever

Graham Czach

When you feel it close around you
Falling down.
Unexpected turns can blind you
Losing ground. Will I ever
Will I ever see the light. Words are lies that hope to find you
Silent sound.
Gripping fears control, divide you
Spinning round. Will I ever
Will I ever see the light. Stop fading
All is waking.
No more, apathetic
Mindless ignorance. We are the people
Coming together
Fighting for our rights. All you want
All you need
All is one
All are we going to be. Will I ever
Will I ever see the light.
