

# Always

## Real Life

Turn out the light  
stay here - always. One endless night near you - always.  
We keep it to ourselves about our love affair If no-one ever knows about it  
we don't care.  
I fall apart near you always  
open up your heart give me - always.  
Sometimes I don't even have to call her name We don't make promises  
it's just a game.  
Always never ending  
always no pretending We know our love is forever.  
Always never ending always no pretending  
we know our love is forever.  
Turn out the light  
stay here - always. One endless night near you - always.  
Sometimes I don't even have to call her name
