

# Just Run

## Digital Summer

You've been running your mouth for quite a while now

You think you've got what it takes well let's find out

Will you back down

Or will you stand your ground

Take my advice and just(Chorus)

Run away when you feel the pain surround you

This fight has just begun

I'm not afraid to break your pretty face

And I will

So my advice to you is just runKeep on talking we'll find out what you're made of

I'm bringing something for you to be afraid of

From your first mistake to the last breath that you take

You'll remember my name(Chorus)

Run away when you feel the pain surround you

This fight has just begun

I'm not afraid to break your pretty face

And I will

So my advice to you is just runA different face but the same old story

You stare at me because you think that you know me

But I'm no stranger to this type of game

Every time it always ends the same

They say what you don't know can't hurt you

But in this case that's just not true

If you keep pushing me the way you do

There's no telling what I will do to you(Chorus)

Run away when you feel the pain surround you

This fight has just begun

I'm not afraid to break your pretty face

And I will

So my advice to you is just runRun away from the pain

I promise you it's more than you can take

Run away don't you understand

You should run away while you still can

Just run
