

# Swing It Out

Aaron Carter

Swing, swing it out, swing it out  
Swing it, baby let me know  
That you mean what you say  
When you swing it all the way  
Now baby, swing it out  
You stood out amongst the crowd  
And I was left without a doubt  
That you were meant for me  
So romanced was I by you  
One dance and then I knew  
That I could fall in love, oh yeah  
Oh baby won't you swing it out  
Swing, swing it out, swing it out  
Swing it, baby let me know  
That you mean what you say  
When you swing it all the way  
Now baby, swing it out  
Swing, swing it out, swing it out  
Swing it, baby let me know  
That you mean what you say  
When you swing it all the way  
Now baby, swing it out  
Swing it out, girl swing it out, girl swing it  
Swing it out, girl swing it out, girl swing it  
Swing it out, girl swing it out, girl swing it  
Swing it out, girl swing it out, girl swing it  
Swing it out, girl swing it out, girl swing it  
Swing it out, girl swing it out, girl swing it  
Swing it out, girl swing it out, girl swing it

I have never known before  
A girl I wanted more  
The way I want you now  
I admit you are the best  
And with you I am obsessed  
And could never do without  
Oh baby, won't you swing it out  
Swing, swing it out, swing it out  
Swing it, baby let me know

That you mean what you say  
When you swing it all the way  
Now baby, swing it out  
Swing, swing it out, swing it out  
Swing it, baby let me know  
That you mean what you say  
When you swing it all the way  
Now baby, swing it out  
I, I like to watch you when you dance  
And tonight don't you make any other plans  
Unless you're making them with me  
Swing it, swing it, swing it  
Swing it, swing it, swing it  
Swing, swing it out, swing it out  
Swing it, baby let me know  
That you mean what you say  
When you swing it all the way  
Now baby, swing it out
