

Dreamtime

Yes

Dreamtime begins
Where every song is the perfect place
 Words never spoken
 Are the strongest resounding
 Life force is meant for us
 To remember the stars, the earth
 Still we forget
 So asleep in this dreamtime
 Lost in this dreamtime day
 Take me up into that freedom place and justify
 Electrify the senses sharpen than the soul intensify
 Nominate that we can break out take, take, take, take together
 Hesitate and you will dance on this earth to, to forever
 You are the choice forever trying
 Give you wings forever flying
 You can fly, you can glide, you can dream
 You can see through this interactive vision streaming
 You have the faith, so busy trying
 So let it go forever flying
 To the sky, to the earth, to the moon, to the sea
 To the sun, to the stars, to the dream you become
 Nothing left to lose
 Nothing more to prove
 With wings of gold
 You'll fly away
 Talk among the prophets
 Give you something
 Talk among the teachers
 Tell you something
 Talk among your one true self now
 Forever, forever, forever, forever

Dreamtime begins
Where every song is the perfect place
 Words never spoken
 Are the strongest resounding
 Life force is meant for us
 To remember the stars, the earth
 Still we forget

So asleep in this dreamtime
Lost in this dreamtime day
Take me up into that freedom place and justify
On the silent wings of gold my soul intensify
Nominate that we can take, take, take, take, take, together
Demonstrate that we can break it out and take it forever
Here's what you know
Here's what you're asking
The soul is everlasting
You can fly, you can glide
You can dream, you can see
Through this interactive vision streaming
You have the faith, so busy trying
So let it go forever flying
To the sky, to the earth, to the moon, to the sea
To the sun, to the stars, to the dream you become
Nothing left to lose, nothing more to prove
When wings of gold will fly away
Talk among the prophets, give you something
Talk among the teachers, tell you something
Talk among your one true self now
Forever, forever, forever, forever
