

# Supernova

## Dragonland

"A supernova is an extremely energetic stellar phenomenon. The stardust spewed forth from the explosion is believed to have formed subsequent generations of stars, planets, and eventually life itself. The amount of energy unleashed, is marvelous."Do you believe in powers extreme?

Bewildering majesty  
Can you perceive a vision supreme?  
Eruption sereneGrim destiny  
Infinity  
Radiant intensity  
Ethereal sphere  
Future severe  
Benevolent fearInto its fortune bestowed  
Marvel and let it explode!  
To the inferno we go  
Detonate the sun  
And soar into the supernova  
Now it has begun  
A solar mass undoneSay can you feel  
Destruction surreal  
Deadly calamity  
A final demise in godly disguise  
Now will ariseHead to the wisdom of old  
Unleash a glory untold  
To the inferno we goDetonate the sun  
And soar into the supernova  
Now it has begun  
A solar mass undone  
Head to its fortune bestowed  
Marvel and let it explode  
To the inferno we goDetonate the sun  
And soar into the supernova!  
Now it has begun  
A solar mass undone
