

Just One Lifetime

Barbra Streisand

At last my heart is ready this time I can believe
That love has truly found me how sweetly love surrounds me
You're like a glimpse of heaven, a blessing I've received
I'll give you my tomorrows but even now I can see Just one lifetime won't be enough time for us
We need more for all this love
Just one lifetime can't be enough time for us
We need more for all this love What you have given to me is better than a dream
There's no need for pretending you're my happy ending
So I will hold you closer with all the love in me
And wish we had forever for even now I can see Just one lifetime won't be enough time for us
We need more for all this love
Just one lifetime could never be enough time
We'll need more I prayed my heart would lead me
To find a love somewhere
It's taken me a lifetime
To find you waiting for me there Just one lifetime won't be enough time for us
We need more for all this love
Just one lifetime and all that's waiting for us
We want more for all, for all this love
