## Slim Thug

P-p-playin' still

Thugga

(I wanna be free)

I don't need a lover, I don't need a family

I don't need a ball and chain here keepin' me

I don't need a bride time, no wide valentine

I don't need a heart that's stringin' me worldwide

I wanna be free fallin', free ballin'

On the top of the city lights callin'

Don't feel sorry for me 'cause I wanna be free

I wanna be free

(I wanna be free, I wanna be free)

No marriage for me, I'm cool

To give a single life up, I be a fool

Party all night, sleep all day

Pack up and go when I wanna get away

This week N.Y., next L.A.

Then in Miami just to see the heat play

Settlin' down now nope not in my world

Why pick when I get all the pretty girls?

I wanna be free and just do me

Welcome to the thug show, it's a movie

A lot of groupies, late nights and fun times

No need to worry, I'll be fine

I don't need a lover, I don't need a family

I don't need a ball and chain here keepin' me

I don't need a bride time, no wide valentine

I don't need a heart that's stringin' me worldwide

I wanna be free fallin', free ballin'

On the top of the city lights callin'

Don't feel sorry for me 'cause I wanna be free

I wanna be free

(I wanna be free, I gotta be free)

It's peace and quit when I wake up

House clean, no girl clothes or make-up

Smoke what I want, turn the music bass up

Oh, you tired, let me call another date up

Why you mad at me, baby, I ain't your man

I'm what they call your homie lover friend  
Late night hype when you feelin' lonely  
But you never ever be the one and only  
I'm gone all the time, too focused on my grind  
To be on the road with your home on my mind  
I live a life that ain't right for a wife  
Too much temptation out here every night  
I don't need a lover, I don't need a family  
I don't need a ball and chain here keepin' me  
I don't need a bride time, no wide valentine  
I don't need a heart that's stringin' me worldwide  
I wanna be free fallin', free ballin'  
On the top of the city lights callin'  
Don't feel sorry for me 'cause I wanna be free  
I wanna be free  
(I wanna be free, I wanna be free)  
I do what I wanna do when I want to  
See who I wanna see when I want to  
Be where I wanna be when I want to  
'Cause I'm free to do whatever I wanna do  
And it feel good, yeah, real good  
No stress from my ex no more  
I'm in the cool top, downright solo  
And I won't get locked down no more  
I don't need a lover, I don't need a family  
I don't need a ball and chain here keepin' me  
I don't need a bride time, no wide valentine  
I don't need a heart that's stringin' me worldwide  
I wanna be free fallin', free ballin'  
On the top of the city lights callin'  
Don't feel sorry for me 'cause I wanna be free  
I wanna be free  
(I wanna be free, I wanna be free)  
I wanna be free  
I wanna be free  
I wanna be free  
I wanna be free
