

Played Yourself

Brian McKnight

I like that, check it out
Watch out, na na
It's okay, L J
[Incomprehensible]
[Incomprehensible] F K, Vibrator
[Incomprehensible] come on All you do is tell me lies
Can't you see I'm not surprised
That you think that I'm a fool, yeah 'Cause you think that no one sees
And you think you're playin' me
I just think that you're confused
You're playin' you, baby You didn't think that I would catch you
And you didn't know how I knew?
You didn't think your girl would tell on you
You played yourself that way You didn't think that I would catch you
And you didn't know how I knew?
You didn't think your girl would tell on you
You played yourself that way She was your best friend in your eyes
But she told me the flip side
Guess she wanted in my life If you would've seen her plan
Would've known I was the man
That she desired to have
You were too blind to see, yeah I waited
Long enough for you to throw your cards
But you played it
But playin' didn't get you very far You didn't think that I would catch you
And you didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way You didn't think that I would catch you
And you didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way You didn't think that I would catch you
And you didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way You didn't think that I would catch you
And you didn't know how I knew
You didn't think your girl would tell on you
You played yourself I was waiting
You played it
I was waiting

You played it You didn't think that I would catch you
And you didn't know how I knew
You didn't think your girl would tell on you
You played yourself that way
