

# Hold On To The Good Things (Stuart Little 2 OST)

[Shawn Colvin](#)

It's a beautiful world  
It's a beautiful day  
And an usual time is coming away  
We're on an adventure, hippy poo-eyUp in a balloon  
I'm sailing with you  
On top of the world  
We've got nothing to do  
There's a silvery lining  
And the sun is shiningHold on to the good things darling  
Hold on to the silver lining  
Hold on to the beautiful melodies  
And leave those worries behind usA little of this, a little of that  
The recipe calls for ahead don't look back  
With you and me anything is possible  
Friends are here to remind usIt's all about friends, it's all about love  
And having someone that you know you can trust  
We're in this together, it's all about usI'm feeling so good, I'm feeling no pain  
I'm washing my troubles, life doesn't change  
Life is unfolding, gotta keep on goingHold on to the good things darling  
Hold on to the silver lining  
Hold on to the beautiful melodies  
And leave those worries behind usHold on to the good things  
Hold on to the good things  
Off we goHold on to the good things darling  
Hold on to the silver lining  
Hold on to the beautiful melodies  
And leave those worries behind usYou can look to the east, you can look to the west  
You can look to someone who loves you the best  
So good to be a part of the family  
Friends are here to remind usHold on to the good things  
Hold on to the good things
