

Party In the Penthouse

Airbourne

I make a getaway
From the day to day
Above the city of lights
There's a party going on tonight
We're mixing sugar and spice
The Champagne's on ice
The sky rise is alive tonight At the top of the town
It's a party in the penthouse
Shake it to the ground
The cop's a bangin' on the door
But up here there's no law
We got an endless mini bar
There's a television on the squad car
We're mixing sugar and spice
The slab of Vie's on ice
The sky rise is alive tonight At the top of the town
It's a party in the penthouse
Shake it to the ground
Oh yeah We're gonna shake, shake, shake, shake it baby I'm flat on my face
I'm a big disgrace
Washed away like a sin
Suddenly I get a second wind
In a beer can paradise
That never ever runs away
The sky rise is alive tonight
At the top of the town
It's a party in the penthouse
We're gonna shake it to the ground At the top of the town
Shake it to the ground
