# Don't Let Go

## Justin McBride

Las Vegas, back in 05
A million dollars all on one ride
J.W. tied me in
Said make sure you get him ride
This is what youve been waiting for all these years
Just before I nodded he hollered in my earWhatever you do dont let go
Its time to be a cowboy dont you know
If you get through this you got it whipped
But till you hear the whistle blow
Whatever you do
Dont let goSix months later things got a little rough at home
She had me so turned around
I thought about gettin gone
I was telling J.W. about it
Over a couple beers
He said if you lose one that good
Youll regret this day for yearsWhatever you do dont let go
Its time to be a cowboy dont you know
If you get through this you got it whipped
Therell be better days down the road
So whatever you do
Dont let goIts always something
Another bull to ride
No life aint easy
So you better hold on tightWhatever you do dont let go
Its time to be a cowboy dont you know
If we get through this weve got it whipped
Therell be better days down the road
So whatever you do
Dont let goDont let go
Yeah whatever you do dont let go
Dont let go
Keep on holding on and holding on and holding on
Dont let go
