

# Keep It on the Line

## I Am Apollo

Hold up  
A new days tracks  
I think I'll walk I won't wait  
Cause I wanna run from the city lights Keep it on the line  
Keep it on the low  
Keep it  
Keep it on my mind  
Where I'm gonna go  
And see it Cause I wanna know that  
And you can fall and face the fact  
I think I'll fall like water  
Cause I wanna run and fall in for this Keep it on the line  
Keep it on the low  
Keep it  
Alright get keeping  
Keep it on my mind  
Where I'm gonna go  
And see it  
Heart it is keeping  
Keep it on my mind  
Where I'm gonna go  
See it It's a long way back  
You're a long way out  
It's an empty cup  
And a hollow sense of self esteem  
Cause she ain't it  
And I know that you could try again  
Cause he ain't it  
So have a sense of self respect  
Cause this ain't it I wanna know that  
Ain't it your voice you'll face the fact  
I think I'll walk I won't wait  
Cause I wanna run and fall in for this Keep it on the line  
Keep it on the low  
Keep it  
Alright get keeping  
Keep it on my mind  
Where I'm gonna go  
See it

Heart it is keeping  
Keep it on my mind  
Where I'm gonna go and see it  
Sing it till your morning springs  
Sing it till your night is strong  
You've already arrived softly  
It is now you need to sing it softly
