

We're Dancing

Bridgit Mendler

When you take my hand,
Your face is all I see
And all the walls fade to black,
Like a movie scene
My feet start to move,
What you do to this linolium
It's like the perfect dance floor
Put your hands by my waist,
I hear the violins
And one step is all it takes,
And then my head spins
I don't see the walls at all
Since the minutes we stepped away from this place
We're dancing and then the world disappears
We're dancing to music no one else hears
It's magic, it's like we're stopping time
When your heart beats mine
When we're dancing, dancing, dancing
When we're dancing, dancing, dancing
When we're dancing
World is soft like a blur,
All I see is color
Hardest fall, so it hurts,
When we're with each other
You're a sweet song bird when you're singing in my ear
Goosebumps run down my skin when
We're dancing and then the world disappears
We're dancing to music no one else hears
It's magic, it's like we're stopping time
When your heart beats mine
When we're dancing, dancing, dancing
When we're dancing, dancing, dancing
When we're dancing
I think that we could live for moments like this
The sweetest romances
Feels like there's all this magic
And we just got to grab it
When we're dancing
We're dancing and then the world disappears
We're dancing to music no one else hears
It's magic, it's like we're stopping time
When your heart beats mine
When we're dancing
We're dancing and then the world disappears
We're dancing to music no one else hears
It's magic, it's like we're stopping time
When your heart beats mine
When we're dancing
When we're dancing, dancing, dancing
When we're dancing, dancing, dancing
When we're dancing
