

# I Got This

Jennifer Hudson

Packed all my clothes, shut the door  
Back on the road to success  
Hopped in my two-seater  
Just me in a dream being on the pavement  
Stuck to the hurts and burst  
Spitting words of encouragement, baby  
And if you feel what I'm feeling  
Then don't be scared to say it with me, say (I got this)  
Every single breath's another step on my road  
(I got this)  
I'm from the Southside tryna get to my goal (I got this)  
Ain't no stopping me, come on, follow me if you feel the need  
(I got this)  
Better believe I got this, believe I got this  
So many tried to break me  
When I got up, they knocked me down  
Didn't keep me from moving  
I flip the world upside down  
They said the sky was the limit  
I put my footprint all in it 'cause I've been there  
I'm looking down at the moon  
And if you feel like I do, put your hands in the air (I got this)  
Every single breath's another step on my road  
(I got this)  
I'm from the Southside tryna get to my goal (I got this)  
Ain't no stopping me, come on, follow me if you feel the need  
(I got this)  
Better believe I got this, believe I got this  
Gravity's mad at me 'cause when I fall, I won't drop  
Something in me won't let me stop until I reach the top  
I keep going, I keep showing  
The whole world, everyday I'm growing  
Everything, everything, everything, everything  
Everything in me says I got (I got this)  
Every single breath, another step on my road  
(I got this)  
I'm from the Southside tryna get to my goal (I got this)  
Ain't no stopping me, come on, follow me if you feel the need  
(I got this)  
Better believe I got this, believe I got, I got this  
(I got this) (I got this)  
Said, I got this, yeah  
(I got this)  
I know you know I got this, you better know I got it

(I got this)  
You got it, you know it, I got this, I got it, yeah  
(I got this)
