

# Love's The Answer

**Tanya Tucker**

If you think it's hard in this day and time  
To hold your man like I been holding mine  
There's no secret just some little things to do  
It worked for me and it's bound to work for you  
A loving smile will start his day out right  
A goodbye kiss will bring him home at night  
Reach out to him when he needs a helping hand  
Touch him gently so, he knows you understand  
Be proud of him when you know he's done his best  
Let him know you think, he's better than the rest  
If you wanna hold your man, this is the way  
Love him more today than you did yesterday  
Love's the answer, love's the answer  
Be proud of him when you know he's done his best  
Let him know you think, he's better than the rest  
If you wanna hold your man, this is the way  
Love him more today than you did yesterday  
Love's the answer, love's the answer  
Love's the answer, love's the answer
