

Ship of Fools

Soul Asylum

Shipwreck sailors searching for some fools gold
They're the local drunken boys
Been out drinking all night feeling alright
We watch them kill each other in a fight Ship of fools, drunken hearts
Making yet another new start
Ain't it hard to play that part
When you've got a drunken heart I can't change the world by complaining
You can't change it with a kiss
(Be no?) concentrating contemplating
No time to find out what we miss Ship of fools ...
