Hell on Wheels

Darkbuster

Every time you get inside and get behind the wheel
Every instinct nervous that's how I feel
Whipping on the gas and whipping on the break
Heading for a turn I've had all I can takeHell on wheels
Where'd you learn to drive
Hell on wheels
Can't go 55There's too much traffic you can't pass
On the side double line
You better get direction cause I think your going blind
I guess I'll just be quiet and accept the hand I'm delt
Won't go around that nervous wore my safety beltHell on wheelsHell on wheels
Where'd you learn to drive
Hell on wheels
You're lucky you're alive
