Supastar

Carl Thomas

Girl you're a star
That's what you are
Something wonderful
I gotta let you knowYou mean the world
'Cause you're my girl
Shine like a supastar
To me that's what you areYou must have been
There waiting all the while
While I played the field
Just like an anxious childOh, when I heard one day
You would come to me
Now, here we are
Baby, you set me freeYou're a star
That's what you are
Something wonderful
I gotta let you knowYou mean the world
'Cause you're my girl
Shine like a supastar
To me that's what you areHow sweet it's been
Since you've been loving me
First we were friends
And now we're familyBut what the future holds
Just don't know
But I'll be okay
Long as there's you to holdYou're a star
That's what you are
Something wonderful
I gotta let you knowYou mean the world
'Cause you're my girl
Shine like a supastar
To me that's what you areHappiness with you
Didn't believe it could be true
But now that you're my girl
You know you make me a better worldYou know I never knew
Love like this before
The way you hug me and rub me
You know I like it all overYou're a star
That's what you are
Something wonderful

I gotta let you knowYou mean the world
'Cause you're my girl
Shine like a supastar
To me that's what you areYou're a star
That's what you are
