

# CREATURE COMFORT

## Woods

You never worry, where you've been  
Then you get that look in your eyes  
Creature comfort from within  
Just to fall back into the sky  
Again, over and done  
Again, we fall back as one  
Again, you never close your eyes  
instrumental  
late in the city  
when you can, just don't get caught up in those eyes  
feel the pull back for the bend  
just to fall back into your sky  
again, over and done  
again, we fall back as one  
again, you never close your eyes  
Let there be one together  
Fall back as one  
Oh, you never close your eyes  
let me hold you again  
Lalalalalalalalalalalalalalala  
la la la ala alalalala  
You never worry where you've been  
then you get that look in your eyes  
creature comfort from within  
just to fall back into your sky  
again over and done  
again we fall back as one  
again, you never close your eyes  
Let there be one together  
Fall back as one forever  
when you close your eyes  
Let the be one together  
Fall back as one forever  
when you close your eyes
