Choo Choo

Diane Birch

Advisory - the following lyrics contain explicit language:

My baby's got a cherry eye
It comes out when the moon is high
Oh, when the moon is highOh, my baby's got a heart of gold
But every time the sun goes low
Oh, oh, you know the love don't showJust when I think I'm on the road to heaven
I see I'm only on the road to hellThe devil's got my baby
Somebody help me please
The devil's got my baby
I think he's really after meOh, my baby's got a talk so sweet
Every time the light gets weak
Oh, the promises don't keepThought I was riding on the train to heaven
But I'm on the choo choo straight to hellThe devil's got my baby
Somebody help me please
The devil's got my baby
I think he's really after meOh yeah, just when I think I'm on my way to heaven
I see I'm only on my way to hellThe devil's got my baby
Somebody help me please
The devil's got my baby
But I know he's really after meOh yeah, the devil's got my baby
Oh, the devil's got my man
The devil's got my baby
I know, I know he really wants meI know he really wants me
I know he really wants me
I know he really wants me
I know he really wants meI know he really wants me
I know he really wants me
I know he really wants meI know he really wants me
I know he really wants me
I know he really wants me
