

# Tell Me a Story

## Bearfoot

Tell me a story of days gone by  
I want to leave this life of mine  
Nothing but sorrow and pain I find  
Tell me a story of days gone by

Tell me of Princes, Jesters and Kings  
Townfolk, Crown Jewels, Scepters and rings  
Hoodies and little girls lost in the wood  
Tell me of axes, tell me of woes

Tell me a story of days gone by  
I want to leave this life of mine  
Nothing but sorrow and pain I find  
Tell me a story of days gone by

Haunted treasure lost under the waves  
Hideous ogres deep down in their caves  
Slithering serpents with venomous eyes  
Tell me a story or tell me a lie

Tell me a story of days gone by  
I want to leave this life of mine  
Nothing but sorrow and pain I find  
Tell me a story of days gone by

Perilous journeys far into the east  
Primeval fury, fangs of the beast  
Brave men in battle for honor and glory  
Tell me a story, aah tell me a story

Tell me a story of days gone by  
I want to leave this life of mine  
Nothing but sorrow and pain I find  
Tell me a story of days gone by

Nothing but sorrow and pain I find  
Tell me a story of days gone by
