Center Stage

Capital Cities

There's a good time to do it on your own
There's a good time, now it's time to go
There's a good time, to do it for a change
There's a good time, step out from the cageEveryday I walk away with the feeling that I'm center stage
There's a good time
There's a good time
Everyday I walk away with the feeling that I'm center stage
There's a good time
There's a good timeThere's a good time to do it on your own (on your own)
There's a good time, now it's time to go
There's a good time, to do it for a change (for a change)
There's a good time, step out from the cageEveryday I walk away with the feeling that I'm center stage
There's a good time (there's a good time)
There's a good time (there's a good time)
Everyday I walk away with the feeling that I'm center stage
There's a good time (there's a good time)

Don't think about it
