

# The Ghost

## Efterklang

Look at the way you  
Look out where you walk!  
What kind of fish you are?  
I ll make you do some harm!  
Look at the places  
Look at what s wrong  
What makes you feel so dark?  
What makes you feel so dark?  
The ghost, the ghost, the ghost  
Any help I ve got, I ve got it wrong,  
you re flicking through your tearsThe ghost, the ghost, the ghost,  
the ghost, I never I was ghost  
The ghost, the ghost, the ghost,  
the ghost, I never I was ghost  
Taking it up, you take me up  
Taking it up, you take me up  
Taking it up, you take me up  
Taking it up, you take me up  
Taking it up, you take me up
