

Liberation

Pet Shop Boys

Take my hand I've changed my mind again
Really I believed it true that all who fell in love were foolish
But I was wrong I've learned that lesson well
All the way back home at midnight
You were sleepin' on my shoulder Take my hand don't think of obligations
Now right now your love is liberation To free in me the trust I never dared
I always thought the risk too great
But suddenly I don't hesitate so Take my hand don't think of complications
Now right now your love is liberation, liberation The nights, the stars
Our light shone through the dark
All the way back home at midnight
You were sleepin' on my shoulder Take my hand don't think of hesitation
Now right now your love is liberation, liberation Back home at midnight
All the way back home at midnight
