

# The Light

Selah Sue

Hope that the light will come along  
In darkest hollows I will fall  
Come to me, doesn't matter, say you'll be home  
Let me feel, you all mine, close to my being You dance alone, you don't think about tomorrow  
You walk on by, you're always on your way  
I should just dance alone beside you  
Dance around I could  
So I won't feel low again oh Hope that the light will come along  
In darkest hollows I will fall  
Come to me, doesn't matter, say you'll be home  
Let me feel you all mine, close to my being This summer's waste, but we will have each other  
Don't ask me why we act this way  
We're pulling up the beat, make it better  
So we won't feel low again oh Hope that the light will come along  
In darkest hollows I will fall  
Come to me, doesn't matter, say you'll be home  
Let me feel, you all mine, close to my being Close to my being, close to my being I hope that the light will come  
along  
In darkest hollows I will fall
