### Cat Power

I feel  
I feel tired  
Awake all night  
Heads so heavy like a waste basket I feel choke  
Emotionally broke  
Everything comes around still at the night I feel alone  
I want out  
I want on my own  
I want everything I own I find letters, pictures  
Memories of which I can't seem to let go  
In your bedside table in your pocket in your wallet  
You'll know Abusive  
A stranger in bed  
Elusive  
Forget everything you said  
You've got the right to have that hand on your own  
But the moment you hit it you're on your own You already took over  
Want now you want to hit the road  
In love like a steamboat running on 'need to float I don't need 5 times a day  
To tell me to go 3 6 9  
You drink wine  
Monkey on your back you feel just fine Free  
Free, everything you ever wanted Fuck me
