

I Remember

Pyogenesis

[Music: Flo V. Schwarz, T. Eiermann & W. Maier / Lyrics: Flo V. Schwarz]We were talking about our lives

We were talking about everything

Still we had the same drives

To prove, stand still and to spinBut sweet black emotions, darling

Let us drift far away

When we want to end up sober,

trying not to be unfair, anywhereI remember you - the spirit's all around

I remember you - the spirit's all aroundQuest for drives, quest for us two

Quest for honestly everything

Not the same as it used to

Be whatever you wantBut sweet black emotions, darling

Let us drift far away

When we want to end up sober,

trying not to be unfair, anywhereI remember you - the spirit's all around

I remember you - the spirit's all around
