

This Ain't No Disco

Voodoo Glow Skulls

we're illegal, street lethal
do it like we can
introducing your soul to the new glow
of the voodoo glow skulls banc
we can't be wrong and we won't take no shit
if you don't like it
it goes like this...
neighbors pick up the phone
and call the police
because we're too loud
and we might scare their niece
if we're too loud then leave the building
run away to mommy like little children
call the cops we're too loud
oh run to mommy because there's a crowd
look at his hair, it isn't punk
hey man this ain't no disco
we love to shake, rattle and roll
but if the crowd is low we'll just go home
people understand and we come to play
we break the rules so you will stay
