

I'll Make It

Dorothy Love Coates

I'll work and I'll toil my troubles and my burdens get so hard.
life's tears and all of my fears all of my fears
I don't know anywhere else to go I'll carry them to the Lord
I'll carry to the Lord There is nowhere else for me to go the spirit tells me
I'll keep on don't give up till I reach that city it's not far it just
beyond the next hill, and If the Lord give me the strength I'll furnish the determination
I'll make it Yea yea yes I will.
I learn something from Job Sometimes you just have to wait
You don't understand it you' been misused without a cause your good rewarded for evil.
I'll wait
