Perpetual

ç”°ä¸-å ¬å¹³

Find it in you, raise your eyes
Look beyond the place you stand
Towards the furthest reaches
And to the smallest of thingsThe sound you are hearing
Is the symphony of what we are
Revelation will not come
With heart and mind closed and dividedNo need of sun to light the way
Across the ages, we have reigned as we endured
Through the storm fronts we will ever surely pass
To stand as never ending lightThrow away the mantle
Awake from your uncertain hesitation
No way to describe or equate the feeling
No end to what is at your commandA million thoughts run through you
Concentric circles, ever greater
But you have always known
This is not all there is
To your questions there'll be answersNo need of sun to light the way
Across the ages, we have reigned as we endured
Through the storm fronts we will ever surely pass
To stand as never ending lightLet there be, let there always be
Never ending light
Let there be, let there always be
Never ending lightLet there be, let there always be
Never ending light
Let there be, let there always be
Never ending light
